

**Fort Worth Independent School District
Bid Package 45 - Dunbar 6th Grade Center**

Location:	<i>Fort Worth, Texas</i>
Pre-Design Construction Cost:	<i>\$1.7 Million</i>
Pre-Construction Cost:	<i>\$1.53 Million</i>
Year Complete:	<i>Anticipated Spring 2011</i>
Architect:	<i>Ames Fender, Architect</i>
Project Size:	<i>65,500 Square Feet</i>

Project Description:

Solare Engineering is currently providing Mechanical, Electrical, and Plumbing engineering pre-design and design services for the renovations to Dunbar 6th Grade Center. The school was built in 1956 and several updates were needed to key systems. The design for the school included upgrades to the electrical, lighting, life safety, public address, technology, HVAC, and plumbing systems.
