

**Fort Worth Independent School District
Bid Package 45 - S.S. Dillow Elementary School**

Location:	<i>Fort Worth, Texas</i>
Pre-Design Construction Cost:	<i>\$1.5 Million</i>
Pre-Construction Cost:	<i>\$1.5 Million</i>
Year Complete:	<i>Anticipated Spring 2011</i>
Architect:	<i>Ames Fender, Architect</i>
Project Size:	<i>62,500 Square Feet</i>

Project Description:

Solare Engineering is currently providing Mechanical, Electrical, and Plumbing engineering pre-design and design services for the renovations to S.S. Dillow Elementary School. The school was originally constructed in 1936 and several updates were needed to key systems. The design included upgrades to the electrical, lighting, life safety, public address, HVAC, and plumbing systems.
